dd/mm/yyyy

## **Abstract**

This is where you write an abstract that concisely summarizes your thesis.

# Contents

<b>1</b>	<b>Introduction</b>	<b>1</b>
1.1	Applications . . . . .	1
1.2	Thesis Overview . . . . .	2
<b>2</b>	<b>Definitions</b>	<b>3</b>
<b>3</b>	<b>Related Work</b>	<b>4</b>
<b>4</b>	<b>Evaluation</b>	<b>5</b>
<b>5</b>	<b>Conclusions</b>	<b>6</b>
	<b>Bibliography</b>	<b>7</b>

# Chapter 1

## Introduction

In this chapter we give an introduction to the problem addressed in this thesis.

### 1.1 Applications

Chapters may include sections.

To make sure that this document renders correctly, execute these commands:

```
pdflatex thesis
bibtex thesis
pdflatex thesis
pdflatex thesis
```

Here, the `pdflatex` command may need to be executed three times in order to generate the table of contents and so on. Note that a good thesis has figures and tables; examples can be found in Figure 1.1 and Table 1.1. And every thesis has references, like [DT17].

Final reminder: this template is just an example, if you want you can make adjustments; also discuss with your supervisor which layout he or she likes. But the front page should be as it is now.

TODO: quite a lot!

Column A	Column B
Point 1	Good
Point 2	Bad

Table 1.1: Every thesis should have tables.

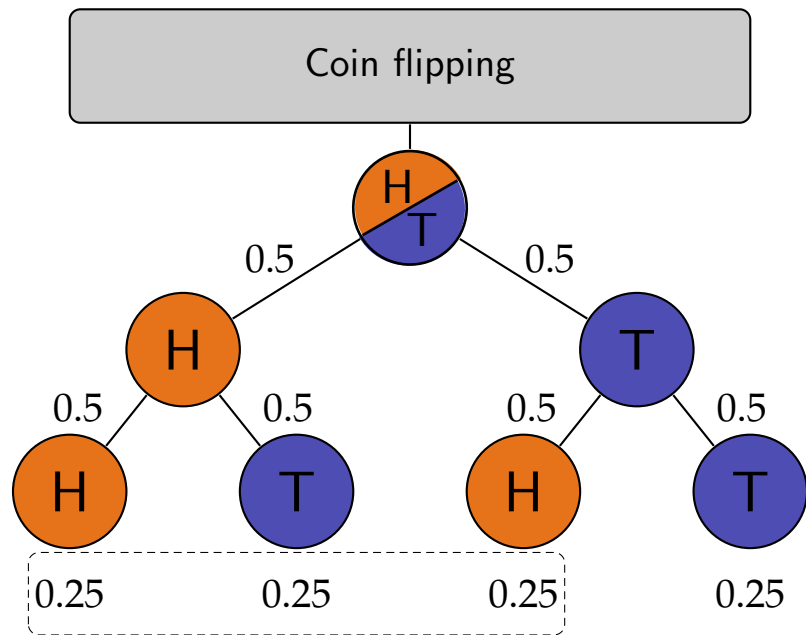

Figure 1.1: Every thesis should have figures.

## 1.2 Thesis Overview

It is recommended to end the introduction with an overview of the thesis. This chapter contains the introduction; Chapter 2 includes the definitions; Chapter 3 discusses related work; Chapter 4 evaluates the contributions; Chapter 5 concludes.

Also make a nice sentence with “bachelor thesis”, LIACS and the names of the supervisors.

## Chapter 2

# Definitions

TODO Finish this chapter ... and the rest!

## **Chapter 3**

### **Related Work**

## **Chapter 4**

# **Evaluation**

## **Chapter 5**

## **Conclusions**

# Bibliography
